Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees.

We have no file size limit. You don't need any special software installed to be able to download your files. It is also allowed to link to the download page from websites and communities. Any file in any format can be uploaded and downloaded for free. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Unfortunately, we can't make that part free. Using file, you can circumvent those limits without paying to upgrade your team chat service. Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. There are no restrictions on the number of times a file can be downloaded. Our service is completely free for everyone. Just upload the file you want to share with your friends and we send you a download link to your file. File is free to use with no gotchas and no hidden fees.
